

Coding and Robotics Foundation Phase Lesson Plans

1.	School Name		Educator Name			Term	Term 2, week 9	
	Topic	Application skills		Grade	R		Start Date (ATP Coverage)	
2	Specific Aims	Tick	✓	Tick	✓	Tick	✓	
		aesthetic, creative skills and cognitive development knowledge through engaging in music and visual art activities		knowledge of digital and ICT skills supported by the technological process and computational thinking skills		understanding of the relationship between people and the environment awareness of social relationships, and elementary science.		
	Computational Thinking	Decomposition		Pattern Recognition		Algorithm Design		Abstraction
	Technological process	Investigate		Design		Make	✓	Evaluate
3	Learning Objectives	The following Application Skills Concepts introduced: <ul style="list-style-type: none"> Continue working on a digital device. Move an object to a certain position in an Application (drag and drop). 						
		Hardware includes physical parts of the computer which you can see and touch like the tower and screen Software is a collection of instructions and data which tells the computer how work						
	Resources	Policy document – Page 35 MAKE 2 – Book 5 - Green book Page: 12-15 Cubroid Kit Smart phones, tablets Cards with pictures of hardware devices						
	EAC / New Words	Computer system, hardware, software, information processing cycle (input, processing, output, storage)						
	Pre-Knowledge /Integration	Knowledge of interaction with phones form home Questions can be asked to learners to establish baseline and/or different levels of learner knowledge and skills Worked with Cubroid app						
4	Educator Activity (period 1 = 60 min)	Complete and demonstrate the activity as per ATP, in Cubroid Make 2						
	Learners Activity	Activity 1:
